

# Data Analysis Agreement

Participating in the Data Analysis program at DeerAge.com is a great way to help you manage your game population by giving you an overview of what your aging profiles look like and if they are changing. It's a great management tool for demonstrating if new or existing management techniques are having any affect. With that there are some obligations you have by participating to ensure we can get your data put together for you.

1. Make sure we receive and check in your samples by the deadline!!! Below are the deadlines for Data analysis based on the service types we have available.

Basic (90 day service)- Teeth must be received by the Monday before February 15<sup>th</sup>

Express (45 day service)- Teeth must be received by the Monday before April 1<sup>st</sup>

Platinum (one week service)- Teeth must be received by the Monday before May 10<sup>th</sup>.

If you normally use 90 day service you will want to be aware of these deadlines and if you miss it then upgrade to the next service level or the most recent year will not be included in your analysis.

2. We will be filling in all data holes from May 15<sup>th</sup> to May 30<sup>th</sup>. If you have left off any of the needed information we will send you an excel file to fill in the holes. Please return it to us as quickly as possible and for sure by May 30<sup>th</sup>.
3. Participate in the Nutrition program if you are providing any feed or supplements. We are diligently working to better understand how feed not only impacts growth and development but also tooth characteristics. You can participate in the nutrition program by going to [www.deerage.com/nutrition](http://www.deerage.com/nutrition)
